

Knabe

REASONS FOR SUPREMACY

No. 1—Tone

The flawless qualities of the Knabe tone have always commanded the admiration of pianists, who have claimed greater power and eloquence of expression on this pianoforte than on any other.

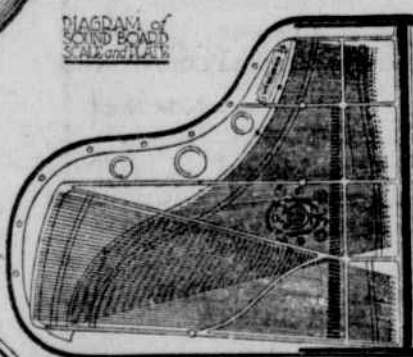

Only the Knabe possesses, in the highest degree, the flexibility and variety of tone color which permits the fullest range in the interpretation of musical compositions.

Knabe

No. 2—Action

The action of the Knabe, as well as every other part, is constructed by our skilled workmen exclusively in the Knabe factory. There, each bit of wood and felt is weighed, tested and rigorously inspected. The elasticity, speed and responsiveness of the finished mechanism attains perfection. Accurately adjusted to react to the pianist's most subtle intention, the Knabe touch enjoys, in equal measure, the fame of the Knabe tone.

Knabe

No. 3—Durability

Since 1837 there is one thing we have never been able to improve—the enduring quality with which every Knabe is endowed. Especially noteworthy is the durability of the Knabe soundboard. Made of selected and perfectly seasoned wood, fitted and finished by careful hand labor, its perfect voice sings on for generations.

The acquisition of a Knabe means perfect musical and artistic satisfaction, pride of possession and the realization of the ultimate economy in purchasing this supreme masterpiece among pianofortes.
